Thermotech's Masonry Stoves

JON JENNINGS AND Thermo-
tech Masonry have unique and
extensive experience designing
and constructing brick bake
ovens and efficient masonry
stoves for Maine homes and
businesses.

JON DESIGNED AND built the
large-scale brick bake oven and
grill (shown above & right) for
the Harraseeket Inn in Freeport
in 1996. It has been fired for
heating and cooking every day
since then.

THE MASONRY STOVE at left was designed by Jon and built by
him and his masons in 2004 at the Manchester location of Ther-
motech's retail operation, Forgotten Stoneworks. This 4x8-foot brick and stone stove features a
brick bake oven, Russian fireplace, cast iron cook
top, warming ovens and drying shelves. It has
a basement firebox with the wood for the year
stored next to it.

THERMOTECH MASONRY STOVES keep you
warm with less wood.
